

RAMSEY COUNTY
STYLE GUIDE

A county of excellence working with
you to enhance our quality of life.

To maximize the impact of Ramsey County’s communications materials, it is important that our materials have a consistent look, design and feel. Using a consistent brand helps broaden customer awareness so that people can find the services they need more quickly and easily.

Strong brands are built through consistent, positive encounters with every aspect of an organization.

Ramsey County is a large organization with a diverse range of departments and divisions. Over the years, the county has built a strong brand foundation through its employees, programs and services. The Ramsey County logo represents a commitment to excellence.

A brand is much more than a logo and a font – it represents everything an organization offers and stands for.

ramseynet.us/BrandResources

An online repository with a variety of brand templates and guides for employees.

STATIONERY	13
TEMPLATES	14
APPAREL	15
SIGNAGE	16

The horizontal (primary) version of the logo should be used whenever possible. If an application does not allow for the use of the horizontal logo, then the secondary (stacked) option is available.

Always use the master digital artwork when reproducing the logo. Never re-create it or alter it in any way, including altering the colors. The logo should only be reproduced in full color (red/gray), black and white, or all-white reversed.

PRIMARY

SECONDARY

FULL COLOR

BLACK AND WHITE

REVERSED

You may also use the reverse logo on the following brand colors:

THE RAMSEY "R"

When necessary, a simplified version of the logo utilizing the standalone "R" – without the words Ramsey County – may be used. This option should be reserved primarily for promotional items and **must be approved** by the Communications & Public Relations director.

[See examples on page 12.](#)

CLEAR SPACE

Clear space is the area surrounding the logo that must be free of text or any graphic elements. This ensures that the logo stands out distinctively. The clear space of the logo is 1x where x is equal to the height of the letters in "RAMSEY COUNTY" and is always '1x' on all sides.

MINIMUM SIZE

To ensure the clarity and legibility of the logo, do not reproduce the logo at a size smaller than 1.75" – horizontal and .75" – stacked. The logo can scale up as large as necessary; always use a vector file (eps) when reproducing the logo at a large scale.

Department logos are available for use within the county brand hierarchy. The logos must be used with the approved department name. Department logos can be found on each department's RamseyNet page under Brand Files & Templates, located on the left-hand side navigation, or by contacting the [Communications Help Desk](#). Division names cannot be added to department logos. The enterprise logo may be used on any material – especially when more than one department is involved. The enterprise logo should be used on Service Team level communications.

Sign-offs acknowledge an affiliation with Ramsey County and may be applied to printed and online communications or tangible assets for programs, properties and other special uses. In addition, official seals and certifications may be used with the county's brand identity.

To build a stronger brand identity, the Ramsey County enterprise or department logos should be used whenever possible.

New special use logos **require the approval** of the director of Communications & Public Relations.

EXAMPLE USE

BOARD OF COMMISSIONERS

Ramsey County red and gray are the distinguishing colors of our brand identity and are used in the county logo. In addition to these two colors, an extended color palette is available to add more flexibility to designs.

[See page 9-11](#) for example usage.

RGB/HTML is for use on digital applications such as websites and PowerPoint; CMYK is for use on four-color printed pieces; and Pantone (PMS) values are for one- or two-color printed pieces. PMS values are the same for **both** coated and uncoated papers. If CMYK uncoated values are needed, please contact the

[Communications Help Desk](#).

Photographic style is representative of the Ramsey County brand.

When choosing photos, please use these considerations:

- Choose photos with good composition. Do not choose photos that look too staged.
- Do not use photography for any print material that is less than 300 dpi resolution at the size it will be printed. Photos should never be enlarged beyond 300 dpi or the images will look pixilated (grainy).
- Be aware of seasonal changes. For instance, consider things like clothing and weather when the brochure will be in use throughout the year.
- Do not use dated-looking photography, such as outdated clothing and hairstyles.
- Be sure the image is reflective of the county and our population.
- Do not use photos just to make materials look "pretty." If a photo does not directly relate to the content of the material, leave it out.
- If using architectural photos or outdoor shots, be sure the photos are free of construction equipment, cones, barricades and other physical distractions (unless these materials relate to the content).

Check Ramsey County's Flickr page for available images for presentations and marketing materials. If you have a specific need, reach out to the [Communications Help Desk](#) and ask for additional options.

TINTS AND SHADES

Screens or tints of the primary colors may be used to achieve a desired effect. Screening the red shades will result in pink and should be avoided.

See below for values to use when creating PowerPoints or Word documents.

 RGB 107·41·18 HTML 6B2912	 RGB 0·12·56 HTML 000C38	 RGB 69·116·54 HTML 457436	 RGB 0·96·119 HTML 006077	 RGB 145·108·42 HTML 916C2A
 RGB 145·58·31 HTML 913A1F	 RGB 23·42·83 HTML 172A53	 RGB 94·147·47 HTML 5E932F	 RGB 0·123·152 HTML 007B98	 RGB 186·138·45 HTML BA8A2D
 RGB 184·73·25 HTML 84BD00	 RGB 28·60·109 HTML 1C3C6D	 RGB 118·178·59 HTML 76B23B	 RGB 0·150·185 HTML 0096B9	 RGB 229·168·36 HTML E5A824
 RGB 203·82·30 HTML	 RGB 26·78·133 HTML 1A4E85	 RGB 143·200·81 HTML 8FC851	 RGB 0·171·207 HTML 00ABC F	 RGB 254·190·52 HTML FEBE34
 RGB 218·133·97 HTML DA8561	 RGB 73·103·153 HTML 496799	 RGB 167·210·119 HTML A7D277	 RGB 49·186·217 HTML 31BAD9	 RGB 254·203·102 HTML FECB66
 RGB 228·168·142 HTML E4A88E	 RGB 115·134·177 HTML 7386B1	 RGB 191·221·156 HTML BFDD9C	 RGB 122·202·226 HTML 7ACA E2	 RGB 255·217·144 HTML FFD990

Tints and shades work especially well when creating charts and graphs for presentations or on the [Open Ramsey County](#).

TIP: To find hex codes (HTML) for tints and shades, visit maketintsandshades.com and type in a Ramsey County color's HTML code ([found on page six](#)).

COLOR COMBINATIONS

Below are color combinations that work well together and create a professional look. Whenever possible include Ramsey red and dark/light gray in your designs. Bringing in the accent colors works well for illustrations, graphics or giving certain programs distinction from each other. Avoid using too many colors, as this can make materials look too busy and make it hard for readers to digest information.

CAMPAIGN COLORS

Use a consistent color palette for certain services and campaigns.
For example: Foster Care uses the purple consistently.

Example:

SERVICE TEAMS

When referencing all four Service Teams in one marketing piece, use these colors to identify each area:

- Bright Orange  HEALTH AND WELLNESS
- Light Teal  SAFETY AND JUSTICE
- Light Green  ECONOMIC GROWTH AND COMMUNITY INVESTMENT
- Dark Orange  INFORMATION AND PUBLIC RECORDS

CONTRAST

Always select colors from the color palette that will create sufficient contrast for all users and keep the text legible.

The following examples show colors that pass and fail for sufficient contrast.

TIP: To check other combinations like light green on dark blue, use this [contrast checker](#) from WebAIM.

There are few instances where the simple "R" logo is justified. Residents are not familiar enough with Ramsey County to recognize the "R" by itself and we should use the full logo including Ramsey County text whenever possible for recognition. Please check with the Communications & Public Relations director before finalizing a design using just the "R."

These examples show some cases where the standalone Ramsey "R" may or may not be used.

Lapel pins

Pens - Downsize the full horizontal logo, even if it gets close to minimum size or surpasses it.

Never place text under the 'R'

Popsockets - The size is large enough to include the full Ramsey County logo, you shouldn't use just the "R."

TIP: In special cases, the "R" may be used as a background design on enterprise materials. Consult with [Communications & Public Relations](#) for guidance.

ENTERPRISE

Enterprise stationery is available for use with Service Team communications and other situations where listing a department doesn't make sense or work well.

TIP: Approved typefaces for the letterhead body are Arial and Calibri. Never use other typefaces when composing any county communications on letterhead. The body copy must be at least 11 point, which is a requirement of the Americans with Disabilities Act.

DEPARTMENT

Stationery is available for use for every department in Ramsey County and master files are maintained by Communications & Public Relations. Departments should not create their own stationery. Employees can access department Word and PowerPoint templates through their department section on RamseyNet. Business cards, envelopes and other stationery can be ordered by department reps through the Ramsey Brand ordering system at ramseybrand.com.

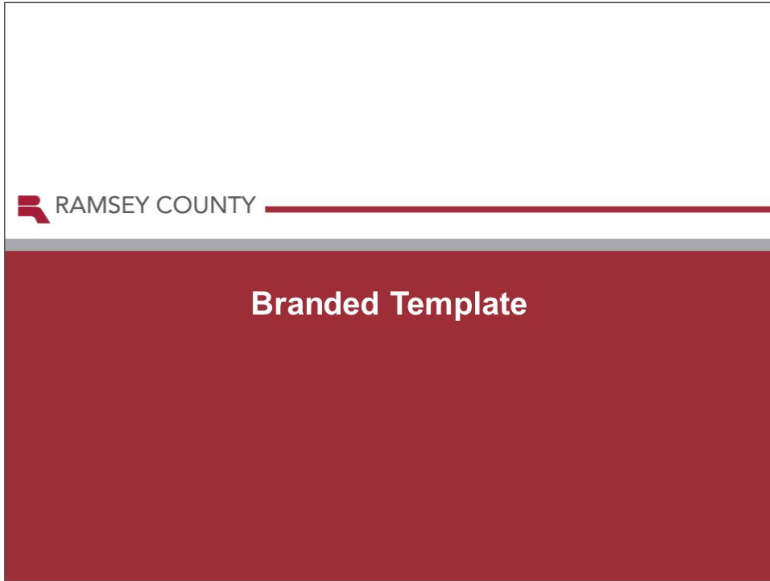

TIP: If you are unsure of who is responsible for ordering stationery for your department, you can find a list at ramseynet.us/stationaryorders.

POWERPOINT

The county PowerPoint templates should be used for all county presentations. They can be found on the county templates page on RamseyNet.

Standard (4:3) and wide screen (16:9) templates are available. Templates will display differently depending on the size of your presentation screen. If you know the size of the monitor or equipment the presentation will appear on, select the corresponding version. If not, use the standard version by default.

REPORTS

The report template is designed for Microsoft Word and includes a cover page and first interior page. County-branded headers will auto-generate when you begin a new page.

Cover pages of the report should not include photos or additional artwork unless the image directly relates to the content. Use Arial, Calibri and Georgia font families. Other than the cover page and headers, use 11 point font for body copy.

Only use the approved versions of the county logo for apparel and merchandise orders. **Do not change the colors of the logo** (for example changing "Ramsey County" to white with a red "R"). Instead, use the one-color/reversed white logo. See example below. Never create logos for specific brand item orders; always use the enterprise or department level logos. Branded items are available for purchase on [RamseyBrand.com](https://www.ramseybrand.com). You can also work with [Communications & Public Relations](#) to order additional items beyond the standard stock listed on the site.

TIP: Embroidery thread type/colors are Madeira Red 1638 and Gray 1619

TIP: Never create logos or add text directly under the logo for specific events/initiatives.

Signage for buildings, offices and wayfinding should follow all brand requirements found in this guide. Each signage project is unique and should be approached with both branding and the specific location in mind. Departments should coordinate orders with both Property Management and [Communications & Public Relations](#) to utilize previous design work and templates for consistency.

EXTERIOR

Monument signs: Monument signs need to be legible and consistent across the county.

INTERIOR

Wayfinding/office signage: Creating a consistent look for wayfinding that follows brand guidelines and the building's architecture is important. Work with Property Management and Communications & Public Relations to utilize designs from other county buildings.

TIP: Property Management administers master contracts for signage production.

UNIQUE LOCATIONS

Contact the [Communications Help Desk](#) for assistance with site-specific design needs.

These examples show signage across the county at various locations.

Department signage - often mounted at the entrance of a department office.

Working with existing signage.

Location signage (cobranded monument).

Wayfinding signage along county roads.

Yard Waste signage (unique locations).

TIP: Visit [this page](#) to view all ad specifications for Facebook and Instagram ads.

TIP: Check with the digital communications specialist for guidance on images.

FOOTERS

Try to keep footers consistent, ideally we will place our logo in the bottom left-hand corner and a URL (if applicable) on the right-hand side. This can be on a white or colored bar, if this does not work with your design, place the logo in a visible place.

TEXT ON IMAGE

Keep text on an image to a minimum, try to create visually compelling designs that draw their attention. Images with **less than 20%** text perform better.

TIP: Check with the digital communications specialist for guidance on images.

TIP: Use [this tool](#) to determine if your image has too much text.

As a county we use common iconography. The information on this page shows frequently used icons and guidelines when choosing new icons for a specific need.

GOVERNMENT RELATIONS

Front/back

2018 FEDERAL LEGISLATIVE PRIORITIES

Infrastructure

Ramsey County will continue to bring commitment to working across all levels of government to maximize funding opportunities. The County is encouraged to be flexible on future transportation investment by the State administration and will continue to be a proactive partner in our transportation program and activities. Major State Road programs include:

- Transportation Planning for all improvements from State Road 96 to Ramsey, MN, which will include a second design program for the corridor and for the completion of an environmental assessment of existing roads.

Transportation Reauthorization

Transportation reauthorization will benefit the following Ramsey County Regional Reauthorized Priority Funding Areas (RPFAs):

- Northwest Ramsey County (NWC) - Ramsey County
- South Ramsey County (SRC) - Ramsey County
- Central Ramsey County (CRC) - Ramsey County
- East Ramsey County (ERC) - Ramsey County
- West Ramsey County (WRC) - Ramsey County
- Southwest Ramsey County (SWC) - Ramsey County
- Southwest Ramsey County (SWC) - Ramsey County
- Southwest Ramsey County (SWC) - Ramsey County

Ramsey County Support of Other Platforms

- The National Association of Counties (NACo) and its associated partner organizations are critical to the success of the transportation program.
- The National Association of Counties (NACo) and its associated partner organizations are critical to the success of the transportation program.

TUBERCULOSIS

Is preventable and curable with support from your community.

People most at risk of being infected with TB:

- Are close with someone who has been diagnosed with infectious TB.
- Have lived or visited a country where TB is prevalent.

People most at risk of developing active TB are:

- Living with HIV.
- Suffering from malnutrition.
- Living with diabetes.
- Taking steroids.
- Using tobacco.
- Under 5 years old.

WORLD TUBERCULOSIS DAY IS MARCH 24, 2018

RAMSEY COUNTY Finance

Procurement Guide

How to Contract with Ramsey County

Register with the Minnesota Secretary of State

Before entering into a contract with Ramsey County, a domestic corporation must submit a Certificate of Good Standing. A foreign corporation must submit a Certificate of Authority. Both are issued by the Minnesota Secretary of State's Office. The certificate must be maintained throughout the term of the contract.

Vendors do not need to have the certificate before participating in a solicitation. However, an awarded vendor must be registered before Ramsey County can execute a contract.

Land Surveying Notice: Starting in September

South Shore Boulevard - County Road 94

Road right of way between White Bear Avenue and East County Line Road

Staff from the Ramsey County Surveyor's Office will be in your neighborhood soon.

- Survey crews will search for and locate survey monuments to determine the existing right of way of South Shore Boulevard.
- Work will take place over several months.
- There will be no disruptions to traffic.

TIP: View the [job log](#) on RamseyNet for other examples of Communications material that has been produced.

Uncoated paper absorbs ink, so the color loses some of its vibrancy and has a matte finish.

Ramsey County red and gray are the distinguishing colors of our identity found within our logo. In addition to these two colors, there is an extended color palette to add more flexibility to designs. See page 13-15 for example usage.

RGB/HTML for use on digital applications such as the web; CMYK for use on four-color printed pieces; and Pantone (PMS) values for two-color printed pieces.
